Full-Stack Developer

[Github](#)
[LinkedIn](#)

Full-stack developer proficient in HTML, CSS, JavaScript, Node.js, Express.js, and React.js. I also have close to five years of experience researching, problem-solving, and writing technical articles. I love seeing the final results of a project created from the ground up and have an active interest in design and arts.

Skills

JavaScript, React, asynchronous programming, HTML, CSS, Bootstrap 5, Node.js, Express.js, RESTful APIs, PostgreSQL, Knex.js, Git, Github, Visual Studio Code, Chrome Dev Tools

Projects

Restaurant Reservation System | [Project Link](#)

- Built and designed a full-stack app for creating and managing restaurant reservations
- Built using HTML, JavaScript, Bootstrap CSS, React.js, Express.js, PostgreSQL, and Knex.js
- Monorepo deployed through Heroku, follows RESTful API convention and attention to frontend design

We Love Movies | [Project Link](#)

- Developed a database and server for an app for viewing movies, theaters, and movie reviews
- Built using Express.js, Knex.js, and PostgreSQL
- Deployed through Heroku, follows RESTful API convention, and utilizes the Cors package for security

Grub-Dash App | [Project Link](#)

- Built a CRUD app to manage a restaurant's menu and orders
- Built using JavaScript, Express.js, and Express Router
- Follows RESTful API conventions for code organization and uses middleware validation

Flash-Card App | [Project Link](#)

- Built a flash-card app for viewing and updating flash-cards for studying
- Built using React.js, React-State-Hooks, HTML forms, and CSS frameworks
- Designed with attention to single-responsibility components and using props

Experience

Full Time Scholar and Teacher
Denver Community Kollel

Denver, CO
November 2017 - Present
